This task might look easy at first glance, but it's not, those rbs spawn occasionally, some of them very rare and a lot of ppl want to kill it. After killing any RB in dv, you get a qi that you switch to a random reward, original mixes, bews, bees, vesper recipes and key materials (guess what is upper clouds?) - the last good quest it harder because you need at least 2 parties. You're going to have to kill three big RBIs, the rewards are random but very good, full halfway through the 84 guns, full vorpai armor, edies, bews, bees, original mixes and gems Home Line II Game Questions Help me guide to level 1-85 thanks.
